

October 2016

Dear parents,

Thank you for showing an interest in 11+ tutoring with Elevate Eleven. We run small group classes after the school day for years 4, 5 and 6. We are currently recruiting for year 4s (details below) and have some very limited availability in other year groups.

Elevate Eleven was founded in 2002 when I, Anita Hill, provided 11+ tuition around my kitchen table. Due to our high success rate we have been able to expand considerably and now have a team of experienced teachers based in 7 centres across the local area of NE Surrey and SW London. We tutor for both the state grammar schools and the independent private schools, all of which set entrance exams to help them select pupils.

Elevate Eleven runs a pre-11+ Foundation course for year 4 pupils in order to establish strong Maths and English skills before the actual 11+ tutoring begins at the beginning of year 5. This is useful for all target secondary schools and some of our current children attend even though they are not going to apply for selective schools of any kind as it helps their confidence and progress in these core subjects.

Elevate Eleven also now offers specific tutoring for children wishing to apply to St George's College and St John's. These schools have recently adopted a slightly different examination system, called CEM, established by the University of Durham. St George's College changed their exam to this type during the Autumn term last year and we are proud to announce that one of our pupils achieved an academic scholarship to the college with tutoring based on our newly-developed CEM course.

We aim to provide, personalised, supportive, challenging and fun tutoring where we use games, particularly at the beginning of year 5, to support our teaching and, in the final 'more serious' term leading up to the exams, we use the hardest type of questions, including maths questions from the Junior Olympiad for those who can stomach it! We also run mock exams and practice interviews.

Call Anita on 07730 955699 or please see our website for more information about our tutoring www.ElevateEleven.com and email us at info@ElevateEleven.com for more details or to book a place on our courses.

Yours faithfully

Anita Hill and the Elevate Eleven team
